

Application Form

CC Framework for Embedded AI (CCFAI)

2 October 2026

Traffic Light Protocol (TLP) Classification

TLP LEVEL	DESCRIPTION	SHARING SCOPE
TLP:CLEAR	Disclosure is not restricted.	May be shared freely and published without limitation.

Important Remark

The application process confirms that prospective members meet the CCFAI membership criteria and can contribute to its mission within the EUCC ISAC.

The process includes:

1. Verification of the applicant profile, technical competence, motivation and acceptance of the CCFAI rules.
2. Submission of this application form, supported by an existing CCFAI member or the CCFAI Chair.
3. Presentation of the applicant organisation and its relationship to Common Criteria certification at a CCFAI plenary meeting.
4. Review by CCFAI members, followed by a two-week period for members to raise concerns.
5. Decision by CCFAI and notification of the outcome to the EUCC ISAC Steering Committee.

The Chair or Vice-Chair will confirm or deny membership after the review period.

Accepted applicants become EUCC ISAC members and agree to comply with the CCFAI Terms of Reference and applicable EUCC ISAC policies.

Instructions

Please complete all relevant sections and submit the form, supporting documents and sponsorship evidence to the CCFAI Chair and the EUCC ISAC Secretariat at contact@ccisac.eu. The information will be used solely to assess membership and will be handled confidentially.

Applicants should identify the membership status requested. Organisations recognised as Historic Members under the CCFAI Terms of Reference are admitted without a membership assessment but should provide the administrative and representative information requested in this form.

Important Note:

By applying to CCFAI, accepted entities also become members of the EUCC ISAC.

A separate application is required for each additional EUCC ISAC Technical Group. Membership in CCFAI does not automatically grant access to other Technical Groups.

The applicable EUCC ISAC membership fee depends on the entity category, annual turnover and Technical Group participation. The Secretariat issues one consolidated annual invoice.

Section 1 Organisation Information

1. Organisation Name:

2. Type of organisation

2.a. Certification and public sector entities

- ☐ NCCA or CAB operated by an NCCA and involved in EUCC maintenance
- ☐ National Accreditation Body (NAB)
- ☐ CAB not operated by an NCCA and accredited under the cybersecurity certification framework
- ☐ ITSEF or laboratory operating in the EU and supported by an NCCA

2.b. Industry and user entities

- ☐ AI vendor, integrator, or manufacturer or provider of AI-enabled ICT products
- ☐ Service provider, end-user organisation, trade association, or other relevant stakeholder

For Executive Member eligibility, manufacturers and ICT providers should describe relevant recent EUCC activity. ITSEFs and laboratories should identify the NCCA supporting the application.

3. Requested membership status

- ☐ Executive Member ☐ Associate Member ☐ Observer ☐ Membership in Trial Status

4. Year of Establishment (optional)

5. Registered Address (City, Postal Code, Country)

6. Website

7. Organisation Overview (background, mission, ownership and links to other organisations or schemes)

Section 2 Industry Profile and Expertise

8. Primary role relevant to CCFAI

- ☐ Certification authority or conformity assessment
- ☐ AI enabled product development or manufacturing
- ☐ ITSEF or security evaluation laboratory
- ☐ Public authority, NCCA, CAB or NAB
- ☐ AI cybersecurity research or standardisation
- ☐ End user, service provider or industry association
- ☐ Other:

9. Main products, services and markets

10. Operational scope

- ☐ National ☐ European ☐ Global

Please specify countries or regions:

11. Expertise and evidence relevant to CCFAI

Section 3 CCFAI Representatives and Contact Persons

12. Primary CCFAI representative and contact person

Name:		Position:	
Email:		Phone:	

13. Secondary representative (optional)

Name:		Position:	
Email:		Phone:	

14. Other representative (optional)

Name:		Position:	
Email:		Phone:	

Section 4 Motivation and Contribution

15. Why does your organisation want to join CCFAI and what reciprocal benefit do you expect

16. How will your organisation contribute actively to the CCFAI mission

Please describe:

- Expected contribution to CCFAI workstreams, subgroups or deliverables
- Planned participation in meetings, reviews and technical tasks
- Relevant experience with Common Criteria, AI cybersecurity evaluation, standards or certification

Section 5 Sponsorship and Supporting Documents

17. Sponsorship from an existing CCFAI member or the CCFAI Chair

☐ Attached ☐ Not applicable

18. Supporting evidence

☐ Presentation ☐ Technical evidence ☐ Other:

Section 6 Administrative and Billing Contacts

19. Administrative contact

Name: Position:
Email: Phone:

20. Billing contact

Name: Position:
Email: Phone:

21. Billing address (City, Postal Code, Country)

22. VAT number (if applicable)

23. Preferred invoicing method

☐ Email ☐ Postal Mail ☐ Other:

24. Is a purchase order required for billing

☐ Yes ☐ No

If yes, please include PO number or instructions:

Section 7 EUCC ISAC Membership Fee

By applying to CCFAI, accepted applicants also become members of the EUCC ISAC.

Membership fees are determined by:

1. **Annual revenue range** (*reflecting the total consolidated annual turnover of the group of companies of which the applicant is a part*)
2. **Participation in EUCC ISAC Technical Groups**
3. **Eurosmart membership status** (discounted fees apply for the first year that could be reconducted).

A single consolidated invoice is issued by the EUCC ISAC Secretariat. Fees must be paid within 90 calendar days of invoice issuance to maintain active membership. If membership starts mid-year, a pro-rata fee will apply. Membership fees are reviewed annually by the EUCC ISAC General Assembly upon technical groups' proposal and may be adjusted accordingly. [\(See annual Membership fee calculation →\)](#)

25. Applicable annual turnover of the corporate group¹

- ☐ Not-for-Profit Organisation
- ☐ 0–5M
- ☐ 5–50M
- ☐ 50–500M
- ☐ >500M

26. Technical Groups to which you have applied or in which you hold membership

- ☐ JHAS
- ☐ ISCI
- ☐ CCFAI (CC Framework for Embedded AI)
- ☐ JDES (Embedded Device)
- ☐ Software

¹ Applicable membership fees are scaled according to the total global annual turnover of the corporate group the member belongs to. For these purposes, a “corporate group” means the member and any entities under common control, directly or indirectly.

Section 8 Compliance and Declaration

By signing below, the applicant confirms that:

- The information provided is accurate and complete.
- The organisation agrees to abide by
 - the EUCC ISAC Statutes, [\[link\]](#)
 - the CCFAI Terms of Reference (ToR), [\[link\]](#)
 - the EUCC ISAC IPR policy [\[link\]](#)
 - the Antitrust policy guidelines. [\[link\]](#)
- The organisation accepts the CCFAI rules of collaboration, will respect confidentiality, and will use CCFAI results in its own evaluation or certification activities where relevant. It commits to active participation, including meetings and a reasonable contribution to subgroups, documents, reviews or other technical tasks.
- The organisation consents to verification by CCFAI and the EUCC ISAC Steering Committee and agrees to pay the applicable membership fee within the period stated on the invoice.

I confirm and accept the above statements.

Checklist Before Submission

Please ensure the following items are included:

- ☐ Completed application form
- ☐ Sponsorship evidence from a CCFAI member or the Chair
- ☐ Organisation presentation and supporting technical evidence
- ☐ Signed declaration (Section 8)

About us

The EU Common Criteria Information Sharing and Analysis Centre (EUCC ISAC) is an international non-profit association dedicated to fostering collaboration, harmonization, and excellence in cybersecurity certification.

The EUCC ISAC acts as a central hub for collaboration between public and private stakeholders, ensuring the effective and consistent implementation of the EU Common Criteria (EUCC) certification scheme. It provides essential input to key entities—including the ECCG subgroup for EUCC maintenance (EsEm), the European Commission, ENISA, and Member States—to support the ongoing development and maintenance of the EUCC scheme. We aim to maintain state-of-the-art practices by providing technical interpretations, methodologies, attack quotations, and an up-to-date attack catalogue.
