

Application Form

Software Technical Subgroup (SoftTS)

2 October 2026

Traffic Light Protocol (TLP) Classification

TLP LEVEL	DESCRIPTION	SHARING SCOPE
TLP:CLEAR	Disclosure is not restricted.	May be shared freely and published without limitation.

Important Remark

This application identifies organisations and experts able to contribute to the EUCC ISAC Software Technical Group and its technical subgroups.

The process includes:

1. Review of the applicant's background in software cybersecurity, evaluation, assurance or related technical work.
2. Submission of this application form and any supporting evidence to the EUCC ISAC Secretariat.
3. Selection of one or more technical subgroups and a description of the intended contribution.
4. Assessment of the applicant's relevance to technical guidance, catalogues, harmonisation work and review cycles.
5. Follow-up by the Software Technical Group and the EUCC ISAC Secretariat regarding participation and membership.

Selected contributors may be invited to workshops, meetings and document review cycles.

Accepted applicants agree to comply with the applicable EUCC ISAC governance, confidentiality, IPR and antitrust rules.

Instructions

Please complete all relevant sections and submit the form and supporting documents to the Software Technical Subgroup and the EUCC ISAC Secretariat at contact@ccisac.eu. The information will be used to assess participation and membership and will be handled confidentially.

Applicants may select more than one technical subgroup. Specific Common Criteria expertise is welcome but is not required when the applicant can contribute relevant software evaluation, development, testing or assurance experience.

Important Note:

Applicants seeking formal participation in the Software Technical Group should also indicate their requested EUCC ISAC membership status.

The subgroup choices in this form concern the Software Technical Group only. Separate participation in other EUCC ISAC Technical Groups may require an additional application.

Where EUCC ISAC membership fees apply, they depend on the entity category, annual turnover and Technical Group participation. The Secretariat issues one consolidated annual invoice.

Checklist Before Submission	13

Section 1 Organisation Information

1. Organisation Name:

2. Type of organisation

2.a. Software and evaluation entities

- ☐ Vendor or manufacturer
- ☐ Foundation
- ☐ Conformity assessment body or evaluation laboratory
- ☐ Certification body or conformity assessment body

2.b. Professional and research entities

- ☐ Compliance professional or consultancy
- ☐ Academia, research institute, industry association or consortium

Please describe the organisation's role in software cybersecurity, secure development, evaluation, certification, research or standardisation.

3. Requested membership status

- ☐ Executive Member ☐ Associate Member ☐ Observer ☐ Membership in Trial Status

4. Year of Establishment (optional)

5. Registered Address (City, Postal Code, Country)

6. Website

7. Organisation Overview (background, software activities and links to relevant schemes or working groups)

Section 2 Industry Profile and Expertise

8. Areas of software cybersecurity activity

- ☐ Secure software development or architecture
- ☐ Software evaluation, penetration testing or vulnerability scanning
- ☐ Vulnerability management or software supply chain security
- ☐ Code review, reverse engineering or analysis tooling
- ☐ Evaluation, certification or compliance methodologies
- ☐ Research, standardisation or cybersecurity working groups
- ☐ Other:

9. Relevant products, software building blocks and tooling categories

10. Operational scope

- ☐ National ☐ European ☐ Global

Please specify countries or regions:

11. Relevant expertise, frameworks, certification schemes and experience

Section 3 Software Technical Group Representatives

12. Primary Software Technical Group representative

Name:		Position:	
Email:		Phone:	

13. Secondary representative (optional)

Name:		Position:	
Email:		Phone:	

14. Other representative (optional)

Name:		Position:	
Email:		Phone:	

Section 4 Motivation and Contribution

15. Why does your organisation want to join the Software Technical Group

16. How will your organisation contribute to the Software Technical Group

Please describe:

- Technical guidance, attack method catalogues, attack potential or minimum tooling requirements
- Availability for workshops, meetings, drafting and review cycles
- Relevant products, frameworks, evaluation schemes, projects, publications or working groups

Section 5 Technical Subgroup Participation

17. Technical subgroups the applicant wishes to join

- ☐ Attack Methods ☐ Minimum ITSEF Requirements
☐ Attack Potential ☐ AI Frameworks

Section 6 Administrative and Billing Contacts

18. Administrative contact

Name: Position:
Email: Phone:

19. Billing contact

Name: Position:
Email: Phone:

20. Billing address (City, Postal Code, Country)

21. VAT number (if applicable)

22. Preferred invoicing method

☐ Email ☐ Postal Mail ☐ Other:

23. Is a purchase order required for billing

☐ Yes ☐ No

If yes, please include PO number or instructions:

Section 7 EUCC ISAC Membership Fee

Applicants accepted as members of the Software Technical Group also become members of the EUCC ISAC.

Membership fees are determined by:

1. **Annual revenue range** (*reflecting the total consolidated annual turnover of the group of companies of which the applicant is a part*)
2. **Participation in EUCC ISAC Technical Groups**
3. **Eurosmart membership status** (discounted fees apply for the first year that could be reconducted).

A single consolidated invoice is issued by the EUCC ISAC Secretariat. Fees must be paid within 90 calendar days of invoice issuance to maintain active membership. If membership starts mid-year, a pro-rata fee will apply. Membership fees are reviewed annually by the EUCC ISAC General Assembly upon technical groups' proposal and may be adjusted accordingly. [\(See annual Membership fee calculation →\)](#)

24. Applicable annual turnover of the corporate group¹

- ☐ Not-for-Profit Organisation
- ☐ 0–5M
- ☐ 5–50M
- ☐ 50–500M
- ☐ >500M

25. Technical Groups to which you have applied or in which you hold membership

- ☐ JHAS
- ☐ ISCI
- ☐ CCFAI
- ☐ JEDS (Embedded Device)

¹ Applicable membership fees are scaled according to the total global annual turnover of the corporate group the member belongs to. For these purposes, a “corporate group” means the member and any entities under common control, directly or indirectly.

Section 8 Compliance and Declaration

By signing below, the applicant confirms that:

- The information provided is accurate and complete.
- The organisation agrees to abide by
 - the EUCC ISAC Statutes, [\[link\]](#)
 - the Software Technical Group participation and governance rules, [\[link\]](#)
 - the EUCC ISAC IPR policy [\[link\]](#)
 - the Antitrust policy guidelines. [\[link\]](#)
- The organisation accepts the Software Technical Group rules of collaboration and will respect confidentiality. It commits to contribute to the selected subgroups through meetings, drafting, technical evidence or document reviews.
- The organisation consents to verification by the Software Technical Group and the EUCC ISAC Steering Committee and agrees to pay any applicable membership fee within the period stated on the invoice.

I confirm and accept the above statements.

Checklist Before Submission

Please ensure the following items are included:

- ☐ Completed application form
- ☐ Selected Software Technical Group subgroups
- ☐ Supporting technical evidence or organisation presentation
- ☐ Signed declaration (Section 8)

About us

The EU Common Criteria Information Sharing and Analysis Centre (EUCC ISAC) is an international non-profit association dedicated to fostering collaboration, harmonization, and excellence in cybersecurity certification.

The EUCC ISAC acts as a central hub for collaboration between public and private stakeholders, ensuring the effective and consistent implementation of the EU Common Criteria (EUCC) certification scheme. It provides essential input to key entities—including the ECCG subgroup for EUCC maintenance (EsEm), the European Commission, ENISA, and Member States—to support the ongoing development and maintenance of the EUCC scheme. We aim to maintain state-of-the-art practices by providing technical interpretations, methodologies, attack quotations, and an up-to-date attack catalogue.
